

# CANVAS SEALER

SEALES, CARES AND PROTECTS - ALL-IN-ONE

Long-lasting water proofing – for the entire season.

Best performance on all marine fabrics (dodger, bimini, spray hood, lazy bag, etc.).

Advanced UV-stability – high performance.

Roll/brush application – smart and safe.

High efficiency – for 10 to 20 sqm (subject to condition of textile).

Available in 1000 ml can.

# About us

The brand feldten has been instituted in 1884 by W.C.F.F. Feldten in Hamburg, Germany. Right from the start it provided pioneering material protection solutions and never stopped driving forward after 130 years full of innovations went by.

With feldten marine we entered a new epoch where our traditional brand has been powered up by cutting-edge nanotechnology.

Possessing comprehensive and sophisticated expertise on boat care products we are introducing innovative technology and our know-how to appreciative customers on a worldwide stage.

**EASY TO**  
Clean Polish Seal   
ALL IN ONE PRODUCT

# GELCOAT SEALER UV<sup>+</sup>

CLEANING, POLISHING AND SEALING – ALL-IN-ONE

Multifunctional and time efficient to use "DAME" nominated product with easy-to-clean properties for treatment of all gelcoat surfaces above the waterline.

Obtaining substantial improved cleaning results after the treatment – soil residue above the waterline and even soot particles from the exhaust.

UV-damaged and faded gelcoat surface regains its original colour – swift and easy.

Extremely UV-resistant.

Up to 50% time saving in application compared to traditional wax products.

Available in 250ml and 1000ml aluminium bottle.

# GELCOAT CLEANER

HIGH-TECH, HIGH PERFORMANCE  
– EASY TO USE

Water-based and ready-to-use alkaline cleaner.

Removes heavy soil, black stripes and other oxidation off gelcoat surfaces.

Recommended for RIB's maintenance also.

Available in 300ml and 1000ml manual spray bottle.

# METAL SEALER

CLEANING, POLISHING AND SEALING – ALL-IN-ONE

Smart care for all metallic surfaces (aluminium, stainless steel, brass, etc.) above the waterline.

Maintenance of all technical and decorative metal parts on board.

Easy cleaning and maintenance, time-saving product.

Available in 250ml aluminium bottle.

# PROPELLER & DRIVE SEALER

EASY-SPRAY APPLICATION - PROTECTION

Resilient, transparent and ultrathin clear coat.

Best protection for propeller, drive and other metallic surfaces under the waterline.

Effective adhesion reduction of biological growth in fresh- and salt water.

Offers striking easy-to-clean features.

Available in 125ml spray can.

# MARINE LUBE

SMART LUBRICANT, RAPID DRYING - HIGHLY ADHESIVE

Application on various moving parts on board, like engine parts, travellers, furlers, mast tracks, genoa/ mainsail tracks, blocks, hatches and sliding doors.

Provides optimum of anti-friction features, from engine to deck equipment and rig.

Non-greasy protective film prevents from attracting dust, dirt and other soil.

Available in 250ml spray can.
